Law: Business Litigation

IN THE GRAYSCALE WORLD OF BUSINESS LAW, YOU'RE GOING TO need someone who can discern just what victory is — and how best to achieve it. When a case goes to court, *not losing* is often a victory. And unlike the cases in television dramas, many can drag on — which means you'll need an expert who knows when to settle and when to keep negotiating. In compiling this POWER PLAYERS list, we set to find out: Who are the top local lawyers when you must go to trial or argue before a judge? Who's the one person you want as your general when you wade into legal battle? Who's the one you pray you never find yourself opposite in a court of law? Who can help you make the tough decisions that are in your firm's best interests? Check out these folks. You may be calling on one some day.
