THE NLJ 350 REGIONAL REPORT

Our Regional Report takes the headcount numbers from our NLJ 350 survey and dices up the data, region by region. We've included the number of lawyers in the largest U.S. and foreign markets, plus headcounts for every branch office for every firm on the list.

The NLJ 350 is *The National Law Journal's* annual

survey of the nation's largest law firms. As we reported in our June 10 issue, available online at NLJ.com, the number of attorneys at NLJ 350 law firms grew by just 1.1 percent during 2012. In this issue, we've parsed out exactly where the gains and losses occurred. We've also ranked the biggest firms in the top 25 U.S. cities and in

international cities with at least 450 lawyers from NLJ 350 firms. In addition, we have year-over-year numbers of attorneys in each city to show the increases or declines and the percentage of NLJ 350 lawyers in those locations.

Methodology

For the NLJ 350 survey of the nation's largest law firms, lawyer totals are based on the number of full-time equivalent attorneys for the period January 1 to December 31, 2012. *The National Law Journal* sent surveys to hundreds of firms to determine the 350 largest. Lawyer counts do not include temporary or contract attorneys. A firm must have more lawyers based in the United States than in any other single country to be included. Firms are ranked by the number of full-time equivalent lawyers, rounded to the nearest whole number. Ties in the Regional Report rankings are broken by the total number of full-time equivalent partners working at the firm.
